Los Angeles (February 26, 2010) – Phase 4 Films is pleased to announce the DVD release of the mystery/thriller, **ORDER OF CHAOS**, in the United States and Canada on March 16, 2010. ORDER OF CHAOS is a twisted and smart thriller which chronicles the duplicitous relationship between a naive attorney (Coiro) and a neighbor-colleague (Ventimiglia), and their fierce competition to move up in the firm and get ahead in life, regardless of the costs. Phase 4 Films opened the film theatrically in Los Angeles on February 12, 2010.

“**ORDER OF CHAOS** is a taut and suspenseful story with a strong cast,” said Berry Meyerowitz, President & CEO of Phase 4 Films. “Audiences will enjoy seeing Milo and Rhys square off in roles so different from the characters they play on TV.”

Phase 4 Films will release **ORDER OF CHAOS** on DVD in both the United States and Canada on March 16, 2010. The DVD will be available for a \$29.99 SRP in the U.S. and a \$32.99 SRP in Canada at all major retailers.
